## Lighting

Prices for track light packages include electricity and installation. Track light power is ONLY for track lights; power for other items must be ordered separately. Exhibitor's booth MUST have a horizontal pipe to which the tracks can be safely hung. Exhibitor must ask the service contractor if horizontal pipe can be provided as the Centre does not provide the horizontal pipe. If the Centre or service contractor determines it is unsafe to hang track lights, they will not be installed, and exhibitor will be refunded for the cost of the track lights.

Cobb Galleria  
Centre Package A:  
4' Track with 2  
Lights (15W,  
5000K)
