

KIMPTON

# HOTEL THETA

NEW YORK

## At the center of the universe and out of the fray

Located at the nexus of the Theater District and Midtown West, Hotel Theta is the ideal launchpoint for exploration, with easy access to the city's transportation hubs. Guests can find themselves anywhere in Manhattan inside twenty minutes, or they can step outside and stroll to iconic attractions, from Broadway to MoMA. Attracting both first-time visitors discovering city highlights and nearly-natives returning to their second home, the unique location represents the heart of the city in every sense.

Originally imagined by Morris Lapidus, the pioneer of Miami Modern architecture, the design-forward hotel continues a legacy of elevated escape to this day. From the moment of arrival, guests step out of the city's buzzing energy into a serene and modern space that invites relaxation and restores calm. Whether returning from a day of sightseeing or a Midtown meeting, experience-seekers and business travelers alike are welcomed into a singular city sanctuary.

## THE ROOFTOP

A refreshing retreat for those in the know, Bar Sprezzatura transports guests and locals alike to the Italian Riviera. A secretive entrance gives way to an airy, lush escape that feel more Portofino than Midtown.

The rooftop captures the carefree spirit and conviviality of traditional Italian cicchetti bars. More than small plates and spritzes, expect a decadent departure from the bustle below.
