2. On the day and time that you require labor, you must go to the Labor Service Desk to sign out your labor crew.
3. The labor crew will not be sent to your booth without being signed out.
4. Upon completion of their work, you MUST return the laborers to the Labor Service Desk and sign them in.

6. The number of workers required will be determined by labor foreman.
7. Gratuities are not required or accepted by any DES/RES Labor Crew.

## MATERIAL HANDLING

Drayage and warehouse freight are billed on a round-trip basis, and invoicing will be done from the actual weight as listed on the inbound bills of lading. If you have any questions about material handling, please contact our Customer Service Department. NOTE THAT NO ADJUSTMENTS TO DRAYAGE CHARGES WILL BE MADE ONCE THE SHOW MOVE-OUT HAS CONCLUDED.

## WASTE REMOVAL

Environmental Protection Agency (EPA) regulations require that all water soluble cutting and grinding fluids (coolants-synthetics, soluble oil) be removed in approved containers at the end of the show. This service is available from the official General Contractor who will collect the fluids named on the front from special steel barrels (55 gal. drums) and remove them from the show premises. Each exhibitor, however, has the responsibility of collecting and placing the fluids named on the front of his/her barrel(s).

WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) ONLY SHALL BE PLACED IN APPROVED BARRELS AS MARKED. DO NOT MIX WITH WASTE STRAIGHT OIL, AS THIS WILL RESULT IN A PREMIUM SURCHARGE OF DOUBLE THE QUOTE PER GALLON CHARGE.

WASTE STRAIGHT OIL MUST NOT BE MIXED WITH ANY OTHER MATERIALS INCLUDING WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) AS THIS WILL RESULT IN A SURCHARGE TO THE EXHIBITOR PER GALLON FOR REMOVAL OF MIXED FLUIDS. ONLY PLACE WASTE STRAIGHT OIL IN DESIGNATED BARRELS.

## ELECTRIC SERVICE FOR EXHIBITS AT THE DONALD E. STEPHENS CONVENTION CENTER

Electrical requirements for an exhibit at the Convention Center are based on codes developed by local and national organizations whose professional responsibility is for the safety of all exhibitors and visitors.

Too frequently, fires have been traceable to faulty wiring sometimes because of carelessness and sometimes because of lack of understanding of the risks involved.

In the interest of public safety, every exhibit presented in the Convention Center is carefully inspected to determine if violations exist. If they do, qualified electricians are available to correct the problem. This work will be performed on a time-and-material basis. If the exhibitor does not wish to have the fault corrected, electrical service will not be connected.

If an exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to the Convention Center.

## SAFE WIRING IS ESSENTIAL

Donald E. Stephens Convention Center is responsible for the total electrical distribution systems and the linking of all electrical items in an exhibit with the power services of the building.

Serious risks are involved which can be reduced with accurate understanding of basic requirements. Safe wiring inside an exhibit is essential.

Wiring that touches the floor must be "SO" cord which is insulated to qualify for "extra hard usage." Cord wiring above the floor level can be "SJ" which is rated for "hard usage."

All flexible cords shall be 3-wire unless the cord is a component part of an assembly which is specifically approved.

The use of open clip sign sockets, latex or lamp cord wire in displays, duplex or triplex attachment plugs are prohibited by order of the Rosemont Fire Department and Electrical Inspection Department.

All electrical equipment and wiring requires evidence of testing and approval by a nationally recognized testing laboratory.

Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which may be affected by heat.

The Convention Center electrical services offer extension cords, spiders and plug molds which provide safety approved multiple plug in capacity.

State of Illinois legislative changes have modified work rule jurisdictions and wage scale schedules in the Chicagoland area. There are seven major unions that have some jurisdiction in the Chicagoland area. The following guidelines will help you in preparing your exhibit to understand these jurisdictions.

## WHAT AN EXHIBITOR CAN DO WITHOUT UNIONS IN THE CHICAGOLAND AREA

Chicagoland work-rules modifications now enable exhibitors to perform several set-up tasks which in the past were under union jurisdiction. Each of these are itemized below, and must be completed by full-time employees of the exhibiting company.

- 1) Exhibitors may set up and dismantle their own booth displays, as well as the various tasks outlined below, provided the work is being done by full time employees of the exhibiting company. No outside workers are permitted to provide set-up and dismantle services unless they are members of a Chicagoland Carpenter Union Local with valid trade show jurisdictions. Proof of employment for exhibiting company shall be required.
- 2) Exhibitors may use hand tools and power tools to perform work within their booths.
- 3) Exhibitors may affix clamp-on lights to the top of their booth displays.
- 4) Exhibitors may calibrate and do repair work on internal circuit boards, and do interconnecting of peripheral computer equipment.
- 5) Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.
- 6) Exhibitors may hang pictures, graphics, logos, etc. onto a backwall display when such items are designed to be affixed by pre-set velcro strips, permanently mounted hooks, or snaps.
- 7) Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment provided it can be done without the use of a fork-lift, flat cart or dolly, only from a designated parking area.
- 8) Exhibitors may inflate balloons.
- 9) Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.
- 10) Exhibitors may un-pack, re-pack and set out their own product line within the booth for display purposes.

## CARPENTERS UNION

Carpenters handle the erection and dismantling of display structure and exhibit booths. This includes all display work with the exception of machinery, signs display graphics or lighted headers, unless the sign or header is a permanently attached part of the display. Carpenters also recreate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

## DECORATORS UNION

Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

## ELECTRICAL UNION

Electricians handle all electrical work, which includes supplying power lines to your booth, connecting equipment to the proper outlets, installing any signs or headers that are lighted, unless they are permanently attached to the exhibit backwall, and the running of cable within the exhibitors booth.

## MACHINERY MOVERS & RIGGERS UNION

Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove skids and reskid machines, uncrate machines, and respot machines in the booth if needed. This service must be ordered as needed, at exhibitor's expense.

## PLUMBERS UNION

Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

## TEAMSTERS UNION

Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show.

## THEATRICAL STAGEHANDS & STAGEHAND UNION

Stagehands assemble portable lighting and sound systems as well as picture screens 10' x 14' in size and larger. They also operate lighting and sound consoles, and hang lighting trusses and speaker systems.

## PROJECTIONISTS UNION

Projectionists handle all equipment used for projection of images on a screen or surface.

**Hanging of signs, both electrical and non-electrical, is permitted at the Donald E. Stephens Convention Center provided that doing so complies with show management rules and regulations. Exhibitors must adhere to all of the following conditions and limitations listed below:**

- 1) The top of a sign may not exceed the height limitation specific to the booth location and show regulations.
- 2) All hanging signs must be sent to RES warehouse, using the hanging sign shipping label included in this exhibitor service manual by the specified deadline date.
- 3) The total weight limit of the sign or materials is not to exceed 1500 lbs. unless approved by RES and the Donald E. Stephens Convention Center.
- 4) All signs, regardless of size, should be constructed of lightweight metals and plastic to allow greater flexibility and ease of installation.
- 5) The final placement of all hanging signs shall be determined by RES prior to installation to ensure minimum stress to the supporting framework.
- 6) No signs are to be hung from any electrical fixtures, raceways, gas, air, fire protection piping, supports or hangers.
- 7) All electrical and neon signs must conform to electrical codes of the Village of Rosemont.
- 8) RES Decorators are responsible for all hanging signs. RES will pre-assemble and hang all signs. No carpenter labor through a display house will be allowed to assemble any hanging sign.
- 9) Set-up instructions must be included with the Hanging Sign Order Form and with the sign crates.
- 10) Because of the structure of the ceiling and the location of exhibits in relation to support beams, the hanging sign may have to be moved from the original specifications.
- 11) Exhibitor personnel or display house may supervise on your behalf. Exhibitors who do not provide supervision (either company personnel or display house) agree to accept the charges for time, materials and equipment as determined by RES.
- 12) You are required to make arrangements prior to move-out for the outbound dismantling, packing and shipping of your hanging sign. RES cannot be held liable for damages or misplacement of sign(s) should outbound dismantling arrangements not be made. All pertinent information and arrangements must be given to the RES Service Center .

# HANGING SIGN PLACEMENT DIAGRAM

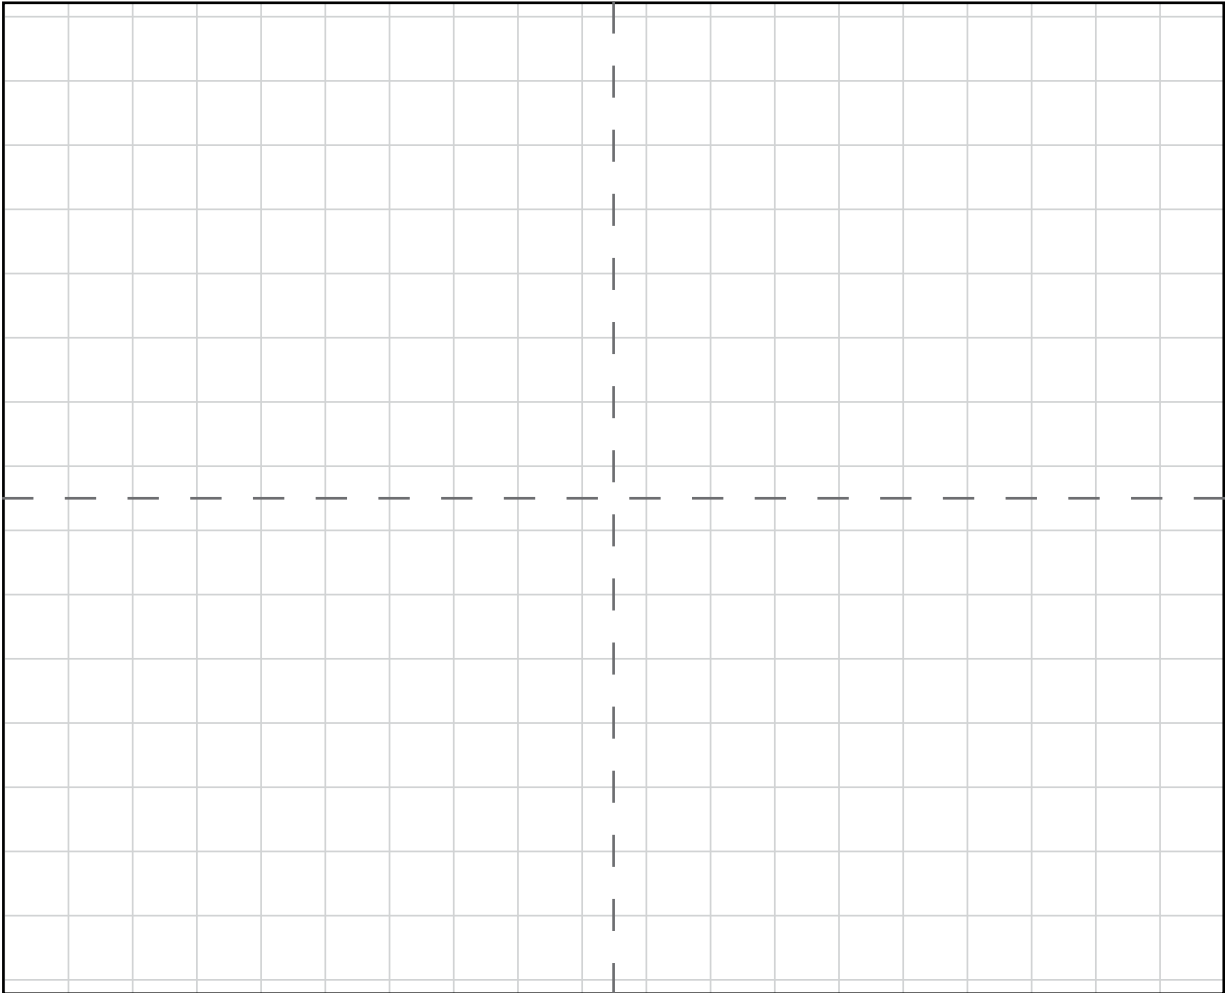

Use diagram below to represent the booth space. Indicate how far from each boundary you would like your sign. The ceiling structure and relation to support beams may require your sign to be moved from your specified location. On signs other than banners, include drawings or blueprints with detailed information so hanging anchor points can be determined. There will be additional labor charges if a hanging sign has to be moved once it has been suspended based on location indicated by the diagram provided by the exhibiting company or display house.

# SHIPPING VS. MATERIAL HANDLING

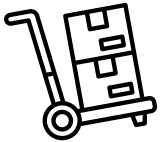

## WHAT IS SHIPPING?

Shipping is the process of a carrier picking up items from your office (or another place of origin) and transporting it to the dock of either the advance warehouse or the event facility.

Please note that shipping is separate from material handling.

Exhibitors may use any carrier they choose, including SAIA Freight.

Exhibitors are solely responsible for all cost related to inbound/outbound shipping

## WHAT IS MATERIAL HANDLING?

Material handling is the process of receiving a shipment from your carrier and managing on-site handling of the shipment through the event cycle. It is a standard event procedure with associated costs typically based on shipping weights.

### Material Handling Process:

- Unloading freight from your carrier once it arrives at the receiving dock.
- Transporting freight from the dock to your booth space.
- Removal and return of your empty shipping containers (boxes, crates, and pallets). Empty labels can be printed at the RES Service Center located on the exhibit hall floor.
- Transferring your freight back to the loading dock.
- Loading your freight into your carrier's delivery vehicle for return shipping.

### One easy way to keep charges low?

Consolidate. Whether you ship to the advance warehouse or directly to the show site, it is in your best interest to consolidate your shipment as much as possible. Each shipment that arrives separately is assessed the minimum charge.

So, keep your charges low by skidding items together to ensure they arrive at the same time.

## Special Freight Services

### Small Passenger Vehicles Only!

- 1) To facilitate the move-in and move-out of exhibitors with small exhibit material shipments, Rosemont Exposition Services is pleased to make available for hire, one (1) laborer with one (1) pushcart, for one (1) trip. Services can be made one way from the dock to your booth or your booth to the dock. Charges for this service is \$125.00.
- 2) This service is for those who have small and carry items all of which must fit on a 3' x 4' push cart, in one trip only. If you arrive with a truck/van or trailer filled with exhibit materials you will not qualify for this service and will be redirected.
- 3) A cartload is eight (8) pieces or less (weighing less than 250 lbs. total.) There is one cartload allowed per booth.
- 4) Your vehicle must unload on the receiving dock of the exhibit hall. (RES personnel will direct vehicles.) The cart is not authorized to enter or go to any parking structure. There must be two (2) people with the vehicle. One person to go with your product to the booth space and one person to remove your vehicle from the unloading area to parking area.
- 5) Freight that is too large or heavy must be handled by RES at their freight handling rates. No personal trucks (1 ton & over), no rental trucks, trailers, or bobtails will be unloaded through cartload service.
